Intimate Care Policy

School aims

The aim of this policy is to ensure that:

- Intimate care is carried out properly by staff, in line with any agreed plans
- The dignity, rights and wellbeing of children are safeguarded
- Pupils who require intimate care are not discriminated against, in line with the Equality Act 2010
- Parents/carers are assured that staff are knowledgeable about intimate care and that the needs of their children are taken into account
- Staff carrying out intimate care work do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the pupils involved

Intimate care refers to any care that involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas. Any roles who may carry out intimate care will have this set out in their job description. No other staff members can be required to provide intimate care.

Principles

It is essential that every child is treated as an individual and that care is given as gently and as sensitively as possible. As far as possible, the child should be allowed to exercise choice and should be encouraged to have a positive image of his/her own body. It is important for staff to bear in mind how they would feel in the child's position. Given the right approach, intimate care can provide opportunities to teach children about the value of their own bodies, to develop their safety skills and to enhance their self-esteem. Parents and staff should be aware that matters concerning intimate care will be dealt with confidentially and sensitively and that the young persons' right to privacy and dignity is maintained at all times.

Definition

Intimate care is one of the following:

- Supporting a pupil with dressing/undressing
- Providing comfort or support for a distressed pupil
- Assisting a pupil requiring medical care, who is not able to carry this out unaided
- Cleaning a pupil who has soiled him/herself, has vomited or feels unwell

Legislation and statutory guidance

This policy complies with the Department for Education (DfE) statutory safeguarding guidance:

- [Keeping Children Safe in Education](#)
- [Early Years Foundation Stage \(EYFS\) statutory framework](#)

It also complies with our funding agreement and articles of association.

Role of the parents/carers

Parents/carers are expected to encourage their child to learn how to use the toilet and undress and dress themselves when at home. The staff will also support both child and parents/carer to develop these skills whilst they are in school.

- Seeking parental permission

For children who need routine or occasional intimate care (e.g. for toileting or toileting accidents), parents/carers will be asked to sign a consent form.

For children whose needs are more complex or who need particular support outside of what's covered in the permission form (if used), an intimate care plan will be created in discussion with parents/carers

Where there isn't an intimate care plan or parental consent for routine care in place, parental permission will be sought before performing any intimate care procedure.

If the school is unable to get in touch with parents/carers and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents/carers afterwards.

- **Creating an intimate care plan**

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (when possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated regularly, as well as whenever there are changes to a pupil's needs.

- **Sharing information**

The school will share information with parents/carers as needed to ensure a consistent approach. It will expect parents/carers to also share relevant information regarding any intimate matters as needed.

Supporting dressing/undressing

Sometimes it will be necessary for staff to aid a child in getting dressed or undressed particularly in Early Years and Nursery. Staff will always encourage children to attempt undressing and dressing unaided.

Role of staff

All staff at the school who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

The Head of School will:

- Oversee the implementation of this policy
- Ensure all staff receive appropriate training and support
- Act as point of contact regarding intimate care concerns

Staff will receive:

- Training in the specific types of intimate care they undertake
- Regular safeguarding training
- If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as possible

They will be familiar with:

- The control measures set out in risk assessments carried out by the school
- Hygiene and health and safety procedures

They will also be encouraged to seek further advice as needed.

Providing intimate care **counts as a reasonable adjustment** for pupils who are not toilet trained, not able to use a toilet independently, or need other help with intimate tasks. This is because failing to do so would infringe upon those pupils' rights to access education due to a disability, under the [Equality Act 2010](#).

Support staff have more flexible roles that can be adapted to include providing intimate care.

Teachers should not be asked to resolve intimate care issues, because:

- This provision doesn't require the professional skills of a teacher
 - Providing intimate care would involve the teacher having to leave the class, which wouldn't be practical
- Teachers' duties in this situation would be to refer and report incidents.

The advice in this section came from the unions [Association of School and College Leaders \(ASCL\)](#) and the trade union [Community](#).

Providing comfort or support

Children may seek physical comfort from staff (particularly children in Nursery and Reception). Where children require physical support, staff need to be aware that physical contact must be kept to a minimum and be child initiated. When comforting a child or giving reassurance, the member of staff's hands should always be seen and a child should not be positioned close to a member of staff's body which could be regarded as intimate. If physical contact is deemed to be appropriate staff must provide care which is suitable to the age, gender and situation of the child.

If a child touches a member of staff in a way that makes him/her feel uncomfortable this can be gently but firmly discouraged in a way which communicates that the touch, rather than the child, is unacceptable.

Medical procedures (See Policy on managing medical conditions)

If it is necessary for a child to receive medicine during the school day parents must fill out a permission form from the school office and discuss their child's needs with a member of staff before the school agrees to administer medicines or medical care. It must be made clear to parents that staff administration of medicines is voluntary.

Any member of staff giving medicine to a pupil should check:

- The pupil's name
- Written instructions provided by parents or doctor
- Prescribed dose
- Expiry date

Particular attention should be paid to the safe storage, handling and disposal of medicines. The Head Teacher has prime responsibility for the safe management of medicines kept at school. This duty derives from the Control of Substances Hazardous to Health Regulations 2002 (COSHH). School staff are also responsible for making sure that anyone in school is safe. Medicines should generally be kept in a secure place, not accessible to pupils but arrangements must be in place to ensure that any medication that a pupil might need in an emergency is readily available.

Soiling

Intimate care for soiling should only be given to a child after the parents have given permission for staff to clean and change the child. Parents who have children in the Nursery may sign a permission form so that the Early Years staff can clean and change their child in the event of the child soiling themselves (Appendix 1).

If a parent does not give consent, the school will contact the parents or other emergency contact giving specific details about the necessity for cleaning the child. If the parents/carers or emergency contact is able to come within a few minutes, the child is comforted and kept away from the other children to preserve dignity until the parent arrives. Children are not left on their own whilst waiting for a parent to arrive, an adult will stay with them, giving comfort and reassurance. The child will be dressed at all times and never left partially clothed.

If a parent/carer or emergency contact cannot attend, the school seeks to gain verbal consent from parents/carers for staff to clean and change the child. This permission will be sought on each occasion that the child soils him or herself.

If the parents and emergency contacts cannot be contacted the Head Teacher will be consulted. If put in an impossible situation where the child is at risk, staff will act appropriately and may need to come into some level of physical contact in order to aid the child.

When touching a child, staff should always be aware of the possibility of invading a child's privacy and will respect the child's wishes and feelings.

If a child needs to be cleaned, staff will make sure that:

- Protective gloves are worn
- The procedure is discussed in a friendly and reassuring way with the child throughout the process
- The child is encouraged to care for him/herself as far as possible
- Physical contact is kept to the minimum possible to carry out the necessary cleaning.
- Privacy is given appropriate to the child's age and the situation
- All spills of vomit, blood or excrement are wiped up and flushed down the toilet
- Any soiling that can be, is flushed down the toilet
 - Soiled clothing is put in a plastic bag, unwashed, and sent home with the child

Hygiene

All staff must be familiar with normal precautions for avoiding infection, must follow basic hygiene procedures and have access to protective, disposable gloves.

Protection for staff

Members of staff need to have regard to the danger of allegations being made against them and take precautions to avoid this risk. These should include:

- Gaining a verbal agreement from another member of staff that the action being taken is necessary
- Allow the child, wherever possible, to express a preference to choose his/her carer and encourage them to say if they find a carer to be unacceptable
- Allow the child a choice in the sequence of care
- Be aware of and responsive to the child's reactions Safeguards for children

There is an obligation on local authorities to ensure that staff who have substantial, unsupervised access to children undergo police checks. All staff in regulated activity at Holy Family Catholic Primary School are DBS checked on application and cannot undertake tasks within school until all checks are completed satisfactorily. The DBS's aim is to help organisations in the public, private and voluntary sectors by identifying candidates who may be unsuitable to work with children or other vulnerable members of society. Personal and professional references are also required and unsuitable candidates are not permitted to work within the school.

All those working with children should be closely supervised throughout a probationary period and should only be allowed unsupervised access to children once this has been completed to their supervisor's satisfaction.

It is not appropriate for volunteers to carry out intimate care procedures. Students should only do so under the supervision of a trained member of staff, following consultation with the student's college supervisors.

Pupils with SEN or not toilet trained

There will be at times, older pupils who require intimate care as part of their need. It is expected that staff working closely with a pupil undertake the changing of nappies if required to do so. Staff will use the facilities in the disabled toilet for changing and dispose of the soiled nappies in the bin outside of the school. This will form part of a pupils' intimate care needs as part of a statement of need.

Younger children will not be refused admission to the school if they are not yet toilet trained. However, we expect that parents help with this transition and as far as possible aim to have a child out of nappies before starting school.

If a child is still not fully toilet trained, the school expects parents to work in partnership with the school to support toilet training as soon as possible, unless there is a medical or SEN reason as to why this may be prevented.

Creating an Intimate Care Plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (where possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated whenever there are changes to a pupil's needs.

Management of menstrual care

All staff will be sensitive to the fact that*:

- Girls at our school may start to menstruate
- While there is no shame or stigma attached to this, those pupils may wish to deal with it discreetly

The school will offer sensitive and practical information to pupils about:

- Where the sanitary products are
- How to use and dispose of them correctly

Pupils will be informed of where the period products can be found so that they can access them themselves. Staff will not directly assist with the physical act of changing sanitary products unless specifically requested by the child and agreed with the parents in an individual care plan due to specific needs.

Age-appropriate education on puberty and menstrual hygiene will be provided as part of the curriculum.

Reporting

Children who need intimate care or require a change of clothes, whether this is a one off or a series of toilet 'accidents' report the incident on CPOMS.

Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance (e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures.

EYFS settings - Any concerns about the safety or welfare of a pupil will be reported immediately to the local authority's children's social care team.

If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to the DSL.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

Where the school notices an increasing pattern of soiling instances, it will first hold a meeting with parents/carers and with any other relevant individuals, such as medical professionals involved with the child to discuss why this might be occurring, and how to help the child. If the pattern continues, the school's designated safeguarding lead (DSL) will be notified. If there is other evidence which indicates a safeguarding concern, the DSL may contact the local authority designated officer (LADO), who will consider whether there is a safeguarding issue.

Permission form for the Provision of Care

(To be filled out before starting Early Years)

If a child wets or soils themselves while they are at nursery or reception it is important that measures are taken to have them changed (and if necessary cleaned) as quickly as possible. Our Early Years staff are experienced and trained at carrying out this task if you wish them to do so or, if preferred, the school can contact you or your emergency contact who will be asked to attend without delay.

Holy Family Catholic Primary has an Intimate Care Policy which is available to view on our website (<https://www.holyfamily.doncaster.sch.uk/>) or ask for a copy from the office.

Please fill out the permission slip below stating your preference.

Name of Child.....Class.....

Please delete as appropriate

*I give consent for my child to be changed and cleaned by Early Years' staff if they wet/soil themselves while in the care of Holy Family Catholic Primary School

*I do not give consent for my child to be changed and cleaned if they wet/soil themselves. The school will contact me or my emergency contact and I will organise for my child to be cleaned and changed. I understand that in the event that I (or the emergency contact) cannot be contacted the staff will act appropriately and may need to come into some level of physical contact in order to aid the child.
